The ent incumbent of the Hoppoship is evident termined to follow in the footsteps of his ecessor, and cares as little about Taclais iceroys' letters, as he does about foreign instrance. (brom the " Straits Times.") the last advices from Labuan we learn Governor Hennessy was at Brunei, whither ul gone in H.M.'s steamer Starling; in conence of representations made to him by Chinese traders in Laboan that a serious rbance was imminent between the Brune he and their fellow-countrymen, most of a great British subjects, in that place. quarrel but it appears that bloodshed d have certainly been the result were it for the prompt and active interference of ernor Hennessy, who held frequent in ews with the leaders on both sides. Owing s friendly exertions as a mediator, the ement has been happily allayed and tranity restored. We cannot too highly comthe Governor's prompt action whenever emergency arises. His Excellency was t Brauei when the mail left Labuan. 5th reference to the piratical outrage in the o Sea, mentioned some time since by a corbodent at Laboan, we have that Governor iessy, having obtained authority from the n of Sooloo to punish the pirates, proceeded e island of Ubean, their chief abode in the of Sen, and where a notorious leader of miscreants, Ati Bunding, resides gotiations for his capture baving failed, of forty sailors and marines were landed the Dwarf, and, accompanied by His ilency, marched inland towards the village pirates. Although the men were protectn steady fire from the Dwarf, and were with Shiderriffes, it was very hazardons for small force to land in a place which swarmth desperatoes armed to the teeth. Neveris, they marched steadily to the village, which ban loned and succeeded insetting fire to the es of Ati Bunding and his followers, in all a hundred buts, which were interly desd. The force was accompained by an envoy the Sultan of Scolon, who pointed out the es of the perpetrators of the late act ( y, who were thus punished; but, in accordwith the wisnes of the Sultan, the buts property of those who were known not

H.M.S. Gnat, mander The daild, was at Labuan by Intest es; and it was thought His Excellency l send her to libeau to complete the work n by the Incarf, and bring back compensato the owner of the prahu. e also learn that the batch of fifty convicts by the Rainbow, have been clanded and imprisoned at Labuan, where no doubt services will be found very valuable. ng to their arrival, the Starling, instead of g to Sarawak, will be stationed at Labrian. he absent offici la namely, Dr. Treacher, Shale, and Mr. Chark. have arrived in the my, where the arrival of two companies of kylon Rilles were daily expected to relieve Hetat baient of Madras troops now serving We understand that seven officers acpany the Ceylon Rifles to Labuan; and biliess the stay, of these gentlemen in the

Colony will considerably enliven its small Eu-Tonesh community.

Of late we hear favourable accounts of the quality of the Labour coal, now produced from the colliery by Mr. Lumsden, the manager of the new company.

A rumour prevailed at Labuan that a force of 2000 Tawi Tawi pirates were preparing to attack the island, in revenge for the damage done at Ubean by the Dwarf. It is most probably a groundless canard; but, in order to reasoure the inhabitants, who were much alarmed, and also lest the report might possibly turn out to be well-founded, we understand that the Governor has ordered the gunboats Gnat and Starling to remain at that station for some time.

GEORGE F. HEARD, Esq. WM. KAYE, Esq. R. ROWETT, Esq. S. D. SASSOON, Esq. F. BUXEY, Esc. General Managers.— MESSES. JARDINE, MATHESON & Co. HEAD OFFICE, No. 39, QUEEN'S ROAD.

The Hongkone Fibe Insurance Company which expires by effluxion of time in a few mouths, having proved a highly successful undertaking, it has been determined by a large number of its shareholders to form a permanent Company, under the same management and with increased Capital. It is proposed to register the Company under the Limited Liability Ordinance, and the amount of the Capital having been fixed at Two Millions of Dollars, it is considered that Insurers will be amply accured thereby, while

at the same time each shareholder will know the extent of his individual liability. The Capital proposed to be called up amounts to a large suni, and provision will be made for the creation of an ample Reserve Fund, which will, it is expected, in a very short time accumulate to an amount practically to give the fullest asenrity both to Insurers and Insured, irrespective of the annual Capital. It is intended to anticipate the termination of the Old Company, by dissolving it from and after the 31st December next, and measures are being taken for that purpose. In anticipating a successful career for the

New Company, it is only necessary to present to the public the results of the Old Company. since its establishment in May, 1866, as exhibited by the following figures:—
The total premiums collected from the 11th May, 1866 to the present time, a period of only 2 years and The loases which have been paid within the same period have
